DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

Examiner notes that claims 17-24 should more accurately be dependent from claim 16, rather than claim 1, and should be corrected.

The species are as follows:

Group 1.

Group 2.

Group 3.

Group 4.

$$\begin{pmatrix} \mathbf{N} & \mathbf{N} \\ \mathbf{N} & \mathbf{N} \end{pmatrix}_{n} \begin{pmatrix} \mathbf{R}_{2} \end{pmatrix}_{i} \begin{pmatrix} \mathbf{R}_{2} \end{pmatrix}_{i} \begin{pmatrix} \mathbf{R}_{2} \end{pmatrix}_{i} \begin{pmatrix} \mathbf{N} & \mathbf{N} \\ \mathbf{N} & \mathbf{N} \end{pmatrix}_{m} \begin{pmatrix} \mathbf{N} & \mathbf{N} \\ \mathbf{N} & \mathbf{N} \end{pmatrix}_{m} \begin{pmatrix} \mathbf{N} & \mathbf{N} \\ \mathbf{N} & \mathbf{N} \end{pmatrix}_{m}$$

Group 5.

$$\begin{pmatrix} \begin{pmatrix} & & & \\$$

Group 6.

Group 7.

Group 8.

Group 9. Group 10.
$$\mathbb{R}$$

Applicant is required to select one of group 1-10 for examination.

As a second election with respect to groups 1-4, a further selection of one of groups 11-18 (shown below) is required, to be examined in the context where the selection from groups 1-4 is a direct substituent (once or more) on one of groups 11-18.

Group 13.

Group 14.

Group 15.

Group 16.

Application/Control Number: 10/519,107

Art Unit: 1709

Group 17.

Group 18.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The following claim(s) are generic: 1-36.

2. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons:

3. The common technical feature of this application is an electroluminescent element comprising a pair of electrodes with at least one constituting layer containing a phosphorescent light emitting layer, wherein one of the layers contains a compounds of the following generic chemical formula, where Z_1 and Z_2 are aromatic heterocycles, and Z_3 is a divalent linking group:

The element claimed is not unique since similar devices have been disclosed by Ueda et al. (JP 2001-160488). Ueda et al. describe electroluminescent elements wherein a layer between the two electrodes is comprised of a comound of the following general formula:

$$z_1$$
 z_2
 z_3
 z_4

Ueda et al. disclose specific examples such as, which meet the limitations of Applicants' claim:

$$(1)C_4H_9 + H_9 + H_9$$

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael E. Nelson whose telephone number is 571-270-3453. The examiner can normally be reached on M-F 7:30am-5:00pm EST (First Friday Off).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, D. Lawrence Tarazano can be reached on 571-272-1515. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
